

# PROGRAMMABLE THERMOSTAT

## MT-73 Programmable, Digital and Remote Sensor Thermostat / Sub-base

- MT-73 provides 7-day programming and two occupied/unoccupied periods per day.
- Individual temperature set points for:
  - Occupied heat and cool.
  - Unoccupied heat and cool.
- Automatic heat/cool changeover.
- Fan can be set for automatic mode or continuous (manual) mode.
- Locking set points and schedules eliminate tampering (use keyboard security).
- Optional remote sensors.
- Convenient overrides allow temporary changes.
- Battery backup saves program and maintains clock during power failure.
